Drexel FIRST Health Equity Seminar Series

Talk Title: *Towards a Qualified Science of Research Representation*

Please join us for our Health Equity Seminar, featuring Dr. Jonathan Jackson, an Assistant Professor of Neurology at the Massachusetts General Hospital (MGH)

Synopsis: In recent years, it has become clear that clinical research participation is more accessible to some populations relative to others. The proposed lecture will provide the audience with an overview of inequities and barriers for clinical trial recruitment in Neurology. The presentation will describe current research in recruitment and inclusion science, including a testable framework for future research, as well as what investigators and study teams can do to minimize barriers to research recruitment.

This talk is scheduled for Thursday, April 20th, 2023, 11am – 12pm in the Health Sciences Building, Room 5W13
