POPULATION HEALTH SPOTLIGHT

Mount Sinai Adolescent Health Center

An Integrated System of Care for Adolescents and Young Adults

This presentation will focus on describing the service philosophy and model of care embodied at the Mount Sinai Adolescent Health Center, in New York City. This is a highly integrated, comprehensive and multi-disciplinary service specifically developed to address the health behaviors, concerns and needs of vulnerable adolescents and young adults. The presentation will also touch on particularly vulnerable populations such victims of sexual abuse and sex trafficking.

Angela Diaz,MD, PhD, MPH is the Director of the Mount Sinai Adolescent Health Center, a unique program that provides comprehensive, interdisciplinary, integrated, medical care, sexual and reproductive health, mental health, dental and optical services to young people.

Wednesday, March 2nd
