CASTLE SEMINAR SERIES

March 21st from 2-3 PM

CASTLE IDEA LAB, 3401 MARKET STREET, SUITE 110

CASTLE SEMINAR SERIES
RSVP: castle@drexel.edu

The Seminar Series is focused on continuous improvements in STEM education teaching and learning. Speakers from a variety of institutions and internal experts from Drexel University are invited to lead conversations on local, regional and national trends in the transformation of STEM Education.

DREXEL UNIVERSITY
Center for the Advancement of STEM Teaching and Learning Excellence

FEATURING:
Pamela Lottery-Perdue, Ph.D.

Lottero-Perdue is a 2014 recipient of the Northeastern Maryland Technology Council Innovator Award and has won multiple "Best Paper" awards from the American Society for Engineering Education (ASEE) for her research on elementary teachers' perspectives on teaching engineering and student and teacher responses to design failure.

She is chair elect of the K12 & Precollege Division for ASEE, and is the director of a new post-baccalaureate certificate program at Towson University in Integrated STEM Instructional Leadership (PreK-6).
