From Data to Action

Mock MMRC Workshop

Birth Justice Philly / Phila Dept of Public Health

Trainees will gain an understanding of maternal morbidity and mortality data, the structure and function of Maternal Mortality Review Committees (MMRCs), and how data-driven recommendations are developed and implemented. The workshop includes an interactive mock MMRC meeting where participants analyze a complex case through a social determinants of health lens, develop recommendations, and discuss how these can be translated into actionable policies and programs to advance maternal health equity.

Sarah Weinbrom, MPH
Perinatal Health Epidemiologist

Mara Pliskin, M. Ed
Senior Program Manager
