BOOKS AND MORE

Questions?
dr62@drexel.edu

Learn to access resources to answer questions such as:

- How do I refine my searches so that I do not have to go through hundreds of citations to pull up relevant papers?
- I am trying to find well published collaborators from different institutions to work on a project related to Structural Health Monitoring. How can I find them?
- Are there any engineering data repositories available where I can deposit and access data as needed?

Wed., Mar. 18
11 a.m.
Hill Conference Room
