### **Robot Springboard Technology Camp**

is a one-week summer camp for elementary & middle school girls who will be in grades 6-9 in the coming school year. Attendees will explore robots and computer programming activities, experience hands-on workshops, and learn about technology careers from industry experts. No prior experience is necessary - girls with all technology skill levels are welcome!

The cost for attending is \$60 - this includes all lunches, snacks and the Technology Showcase.

A limited number of scholarships are available.

Visit **[www.drexelcci.info/robot](http://www.drexelcci.info/robot)** for registration details.
