Context Matters: Community Schools in Different Settings

A virtual conversation about the challenges and experiences of community school practitioners in different settings: large urban centers, smaller cities, and rural communities.

April 1 | 2:00-3:15 PM ET

RSVP at communityschoolshub.com/events

Community School Hub co-founders Dr. Kathleen Provinzano, Bruce Levine, J.D., and Dr. Allen Grant will be joined by community school coordinators and administrators from each of the different settings.
This session is intended to both provide a panoramic view of how full service community schools are impacting our US education landscape, and to provide practical ideas for practitioners to adapt to their respective settings.
