

Faculty Meet and Greet Series

Please join our faculty for an informal series of talks about the diverse ways that materials impact our world.

OCTOBER 5

Dr. Yury Gogotsi

Using Small (nano) Materials to Solve Global Problems

NOVEMBER 9

Dr. Antonios Zavaliangos

Reading the News with a Materials Science Lens

OCTOBER 19

Dr. Ekaterina Pomerantseva

From Volta to Tesla and Beyond through Evolution of Materials

NOVEMBER 16

Dr. Andrew Magenau

Polymers: What's on the Horizon?

OCTOBER 26

Dr. Steve May

Engineering Electrons: The Wonderful and Weird Behavior of Electrons in Materials

NOVEMBER 23

Dr. Jorn Venderbos

Quantum Materials as a Resource

NOVEMBER 2

Dr. Michel Barsoum

Money for Nothing and the Truth for Free

NOVEMBER 30

Dr. Hao Cheng

Materials for Medicine

Mondays, 4-5pm
