Drexel University BioWall

Presentation

25 | **MAY**
5PM - 7PM

DREXEL UNIVERSITY
Constantine N. Papadakis
Integrated Sciences Building (PISB)
3245 Chestnut Street
Philadelphia, PA 19104

Earn Credits for Attending!*

Want to learn about living walls, biophilic design and the new Drexel University BioWall?

Tom Walsh from Parker Interior Plantscape will be giving a presentation on these topics and more on behalf of *Green Plants for Green Buildings*.

After the presentation the students, architects and developers will be able to network and enjoy light refreshments!

** By attending the presentation, you may be eligible for credits/learning units from AIA, ASID, ASLA, BOMI, IDCEC, and LEED AP.*

About The Wall

Comprised of almost 7,000 plants, the five-story tall BioWall is one of the largest in the U.S. Recently completed, the living wall showcases the benefits of biophilia and having plants in an educational space.
