The spatio-temporal relationship between alcohol outlets and violence before and after privatization: A natural experiment, Seattle, WA 2010-2013

Loni Philip Tabb, PhD
Assistant Professor
Department of Epidemiology & Biostatistics
Dornsife School of Public Health

The Department of Epidemiology & Biostatistics
Welcomes

Loni Philip Tabb, PhD

Dr. Tabb is an Assistant Professor of Biostatistics here in the Department of Epidemiology & Biostatistics. She received her PhD and AM degrees in Biostatistics from Harvard University. Dr. Tabb also received a MS and BS in Mathematics from Drexel University. Her research focuses on spatial statistics and epidemiology with applications in health disparities, violence, and toxicity studies. More recently, Dr. Tabb has been interested in examining the spatial and spatio-temporal relationship of alcohol-related violence in urban settings. Her recent collaborations also include working with the Center for Nonviolence and Social Justice here at SPH. This collaboration involves assessing the effectiveness of the "Healing Hurt People" program, which is a hospital-based intervention program to reduce re-injury and retaliation among youth here in the city of Philadelphia.
